DETAILED ACTION

1. This Office Action is made in response to applicant's amendment filed on 5/15/2007. Claims 4, 6, and 8 are currently pending in the application. An action follows below:

Allowable Subject Matter

2. Claims 4, 6, and 8 are allowed.

The following is an examiner's statement of reasons for allowance:

The invention is drawn to a liquid crystal display device with two methods of removing charge from pixels when power is turned off. The two methods of removing power from the display are operating a power-off switch or removing a battery power supply. Depending on the method of power supply removal a different method of power off operation is used.

Claims 6 and 8 identify a display device and method of operation using two methods of removing power from the display. The claims identify the unique feature of associating the different methods of removing charge from pixels in a display based on different methods of removing power from the display, the methods of using power associated with the operation of a power-off button and the removal of a battery power supply. The closest prior art Yasui and Yanagisawa disclose two methods of removing charge from liquid crystal display devices, but alone or in combination, fail to anticipate or render obvious the underlined limitations.

Claim 4 discloses with a control means capable of operating a display device with different methods of removing charge from pixels of the display utilizing two power off states. The claim identifies the unique feature of combining a control circuit able to provide a method of removing charge from pixels in the display with a precharge scanning circuit able to provide precharge signals to pixels during normal operation of the display. The closest prior art, Yasui, Yanagisawa, and Everitt (USPN: 6954606) discloses methods of removing charge from pixels in a display and a pre-charge driving circuit, but singly or in combination fail to render the underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
